*"Are you passionate about helping clients pursue their dreams and discover new, powerful solutions towards their best life?"*

Divine Women in Business defines Life Coaching as **"partnering with clients to take big creative risks in life & business that will magnetize their true purpose to the world"**  
**- Founder, Emily Correa**

For most people, if the process is done right, coaching is a life-changing experience that dramatically improves their outlook on work and life. Coaching helps people tap into their potential, unlocking their sources of internal creativity and productivity.

Individuals who partner with coaches frequently experience benefits including **improved self-confidence, relationships, communication skills, work performance** and more.  
**There is truly nothing like it.**

The **human condition is frequently the most difficult roadblock people have to overcome** to achieve their dreams. Therefore, a good understanding of how the brain reacts *instinctually* is **an excellent skill for coaches.**

The Ultimate Spark! Training Program to become a certified life coach **will teach you this skill in only 3 months.** Our students will learn practical ways to assist their clients in **identifying the client's dreams, their desires, and the roadblocks that exist in their minds. We have over 250 students who have experienced this program to rave reviews.**

Our students will also learn powerful tools such as **self-compassion, self-awareness, and creative thinking** that they can teach their clients as they guide their clients to success.

Our students learn these skills through our **direct live online training and intensive daily homework exercises.**

"Many people research how to become a Life Coach because they have been told they give "good advice".

Truly great coaches are much more than that, they are guides who help their clients find their own answers. We merely support them in this self-discovery.

This allows the client and coach to co-create long-term decisions, strategies, and game plans with the highest level of impact and accountability at every session.

The COACH is your cheerleader, your biggest fan, and your biggest motivator towards your ULTIMATE success. We all need them to hit our peak in life and business."

- Emily C.
